

# Customs Management

Accelerate the **speed, accuracy, and transparency** of customs and compliance for U.S. imports

Features for  
USA

## OVERVIEW

Blujay's Customs Management is an enterprise customs brokerage software solution that enables you to automate customs compliance documentation for high volumes of multimodal shipments. Our solution helps your organization maintain control and effectively manage the risk associated with the customs clearance process, while also improving staff productivity. Blujay's Customs Management provides a single solution for all of your customs and compliance needs. With direct links to U.S. Customs and Border Protection (CBP), the software electronically handles the clearance and entry of freight into U.S. ports. It is specifically designed to handle the customs and compliance requirements of customs brokers who handle international shipments on behalf of their customers. It is also suitable for global businesses, such as importers, that ship high volumes of goods globally into the United States.

## SOLUTIONS AT A GLANCE

- › Compliant with all U.S. import requirements (ACS, ACE, and ISF)
- › Designed to increase user efficiency and maximize productivity
- › Complete and instant visibility to both internal and external customers
- › Instant access to on-demand or scheduled reporting

## KEY FEATURES

- › Direct link with CBP enables electronic filing of entry documentation, and receiving and handling of responses
- › Simple, easy-to-use tools help boost productivity, including faster release of cargo and reduced processing costs
- › Extensive validations and edits ensure no shipment goes to CBP without passing required compliance checks
- › Fully customizable alerts and reporting notify you of issues or exceptions so you can take immediate action

## SOLUTION

Blujay's Customs Management is part of the Blujay Solutions Global Trade Network, a multimodal transportation management platform designed to accelerate the speed, accuracy, and transparency of global logistics processes. The major components of Blujay's Customs Management are a technology that enables automated processing for any type of customs entry, and Blujay's Control Tower, a visibility and event management solution that collects all of your supply chains together in one place, providing a complete view of goods under shipment globally.

### ACHIEVE ACE COMPLIANCE:

- › Simple, phased implementations for ACE, CBP/PGA Services
- › Entry summary filing for all entry types
- › Automated CBP query for incremental AD/CVD case data
- › Electronically submit documents to CBP via ACE-DIS
- › Electronically file post summary corrections

### REDUCE ACE/PGA PROCESSING COSTS:

- › Rate commodities automatically with parts details, which include PGA data
- › Customer SLA and internal best practices enforcement
- › Supervisor review/control of file exceptions
- › ISF validations and integration
- › Document, census, PGA visibility

### ROBUST TOOLKIT:

- › Customer configurable integration tools
- › Customer configurable fields
- › Business rules engine

### FLEXIBLE DATA ACCESS:

- › Published database schema
- › On-demand access to all the data
- › Accessible from within the Blujay Customs or US or industry standard tools
- › Optional customer management of tuning to add indexes, views, triggers and stored procedures

### IMPROVE CUSTOMER SERVICE:

- › Service level agreement management
- › Integrated customer-facing tools
- › Ad-hoc reporting
- › Flexible search capabilities
- › Automated daily and periodic statement processing (auto print/auto email)

### INCREASE PRODUCTIVITY:

- › EDI integration (standard XML transaction set)
- › EDI - missing data notification
- › More than 100 billing algorithms
- › Templates
- › Excel spreadsheet upload
- › 700+ compliance validations
- › "Lights out" processing

### EMBEDDED WORKFLOW MANAGEMENT:

- › User-defined work queues
- › Manual and automated assignment
- › Management from first shipment visibility through post entry processing

## ABOUT BLUJAY SOLUTIONS

Blujay Solutions delivers supply chain software and services to the world's most progressive retailers, distributors, freight forwarders, manufacturers, and logistics service providers. Transforming supply chain logistics with the Blujay Global Trade Network, we enable customers to unlock the power of more than 40,000 universally connected partners. With Blujay, companies can achieve greater trade velocity, transform their supply chain economics for disruptive advantage, and see beyond the horizon to optimize their future in the global economy.
