Parcel for D365
Finance and Operations

Automate **multi-carrier shipping processes,** reduce costs and cycle times

OVERVIEW

The BluJay Parcel solution is an enterprise class multi-carrier shipping management system that supports complex, high volume, multiple locations, and international and domestic shipping. Designed from the ground-up to support black box or attended ship stations in complex distribution environments, the flexible solution is used by thousands of companies every day, including Microsoft Dynamics® AX and D365 companies. Parcel for Microsoft D365 Finance and Operations merges all of Parcel's core functionality directly into D365FO, from the quotation and sales order process through to shipping, manifesting, invoicing and freight charge reconciliation.

SOLUTION

By automating mission-critical processes for parcel and LTL shipping, BluJay's Parcel enables superior cost management, cycle time reductions and faster, more reliable deliveries to customers, meeting the needs of the most demanding shippers. Parcel for D365 Finance and Operations is fully integrated with Microsoft Dynamics® 365FO, providing users with an unprecedented level of control over the entire shipping process, minimizing errors from unnecessary data duplication or re-entry and seamlessly integrating into the ERP workflow.

Part of BluJay's Global Trade Network, Parcel can be deployed to suit your business, either cloud or on-premises. With fast implementation, your solution is up and running quickly, accelerating the delivery of business benefits and return on investment.

Parcel for D365 Finance and Operations enables you to satisfy the needs of your domestic and international shipments, whether you are shipping low volumes of business-critical packages to business customers, or fulfilling the requirements of a high-volume omni-channel retail business. Fully scalable, it allows you to flexibly expand or contract your shipping operation to meet the demands of your business, and your customers. The demonstrated scalability of this solution enables the management of over 2,000 shipping stations from a single deployment – or more than 500,000 shipments from a single facility. Over 5 million cartons are shipped through BluJay's Parcel every day.

This solution supports the broadest set of carriers in the industry, serving both domestic and international requirements, and provides export documentation and compliance checks for all international shipments, supporting even the most sophisticated business rules (e.g. break bulk, advance rate shipping, and multi-leg zone skipping).

Used by thousands of companies every day, BluJay's Parcel accelerates the critical last mile. It provides you with the confidence that no matter where shipments are destined, or where they originate, your shipments will be delivered on time, cost efficiently, and with minimal interruption.

BluJay's Parcel for D365 is scalable to handle fluctuating volume in any node/any mode, from one global platform, providing global visibility and access to international shipping services.
